<b>Discuss Your Projects:</b>	<b>Noon to Completion</b>

## CFCC agencies fund the following types of eligible infrastructure Projects:

- |  |  |
|--|--|
| <ul style="list-style-type: none"><li>• Drinking Water</li><li>• Wastewater</li><li>• Water Quality</li><li>• Water Supply</li><li>• Solid Waste</li></ul> | <ul style="list-style-type: none"><li>• Water Conservation</li><li>• Water Use Efficiency</li><li>• Energy Efficiency</li><li>• Flood Management</li><li>• Compost</li></ul> |
|--|--|

Some of the participating agencies also fund other types of infrastructure Projects including streets and highways, emergency response vehicles, solid waste, and community facilities.

For more information, please visit our web site at [www.cfcc.ca.gov](http://www.cfcc.ca.gov)

## WHAT IS CFCC?

## CFCC MISSION STATEMENT

The California Financing Coordinating Committee (CFCC) was formed in 1998 and is made up of seven funding members: five state, two federal. CFCC members facilitate and expedite the completion of various types of infrastructure projects helping customers combine the resources of different agencies. Project information is shared between members so additional resources can be identified. CFCC members conduct free funding fairs statewide each year to educate the public and potential customers about the different member agencies and the financial and technical resources available.

## WHO SHOULD ATTEND?

Representatives from public works, local governments, and California Native American Tribes. This includes city managers and planners, economic development and engineering professionals, officials from privately owned facilities, water and irrigation district managers, financial advisors and project consultants.

# CFCC Information

Please log on to the CFCC website at [www.cfcc.ca.gov](http://www.cfcc.ca.gov) for the 2017 Funding Fair schedule, CFCC Member Directory and general information.

The purpose of the California Finance Coordinating Committee (CFCC) is to foster cooperation among the seven funding agencies that administer water, wastewater, and other public infrastructure needs. The CFCC encourages the efficient use of funds by reducing administrative costs for recipients and funding agencies, and evaluating methods for improved performance. Members of the CFCC provide a forum to resolve state and federal program requirement conflicts that may make multiple-funded project difficult to administer. Additionally, Funding Fairs provide the CFCC with an opportunity to present current program information to the public. Attendees will also have the opportunity to speak with program staff directly.

## ELIGIBLE PROJECT TYPES

CFCC agencies fund primarily the following types of infrastructure Projects: drinking water, wastewater, water quality, water supply, water conservation water use efficiency, energy efficiency, and flood management. Some of the participating agencies also fund other types of infrastructure Projects including streets and highways, emergency response vehicles, solid waste, and community facilities.
