

Locals Only: Breaking Through Regional Barriers for Energy Action

Presented by SoCalREN and Regional Partners

Southern California REGIONAL ENERGY NETWORK

The Southern California Regional Energy Network (SoCalREN) was created to harness the collective power of residents, businesses and the public sector to achieve an unprecedented level of energy savings across Southern California.

The SoCalREN Public Agency Programs are administered by the County of Los Angeles and funded by California utility ratepayers under the auspices of the California Public Utilities Commission. Learn more at socalren.org.

Who's in the Network?

Note: SoCalREN Public Agency Programs are available in the highlighted counties in areas served by either Southern California Edison or Southern California Gas Company.

High Sierra Energy Foundation

Featured Project: Hilton Creek Community Services District

- The project will improve operations, save energy and money, replace aging equipment, and improve controls of their wastewater treatment plant.
- Project would not have progressed without SoCalREN's professional engineering services, incentives, and financing.
- Rural and hard-to-reach (HTR) agencies are often behind on deep energy savings, challenging the notion of Industry Standard Practices.
