About the 12th Annual California Climate & Energy Forum (CCEC) Forum

The 12th Annual CCEC Forum will feature up to 16 virtual activities available for submitted proposals – 12 Session and 4 Interactive Lunch Event slots. Additionally, there will be an Opening Plenary and a Closing Session internally organized by CCEC Staff and Advisory Committee members.

In order to foster engagement, we are expanding the proposals to include options beyond traditional webinars, such as facilitated discussions, keynote roundtables, networking activities, question the expert, and working groups. Participants will learn about innovative best practices, case studies, tools, and resources while engaging in discussions around accelerating action in their own communities, regardless of their stage in the process.

Forum Schedule

This 3 week virtual forum will take place from August 3rd - 19th with the schedule as follows:

AUGUST 2021				
12th Annual California Climate & Energy Forum				
MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY
2	3 10 AM: Opening Plenary 12 PM: Interactive Lunch Event	4 10 AM: Webinar (1) 12 PM: Interactive Lunch Event	5 10 AM: Webinar (2) 2 PM: Webinar (3)	6
9	10 10 AM: Webinar (1) 2 PM: Webinar (2)	11 10 AM: Policymakers Session 12 PM: Interactive Lunch Event 2 PM: Webinar (3)	12 10 AM: Webinar (1) 2 PM: Webinar (2)	13
16	17 10 AM: Webinar (3) 2 PM: Webinar (1)	18 12 PM: Interactive Lunch Event 2 PM: Webinar (2)	19 10 AM: Webinar (3) 1 PM: Closing Session	20

Holistic Climate/Energy Planning and Readiness (1) | Equitable Decarbonization Strategies (2) |
A Just Transition to Clean Energy (3) | **Interactive Lunch Event**

12th Annual CCEC Forum: *Call for Presentations and Facilitators (CFSP) Guidance Document*

Forum Theme

Transforming Tomorrow Together

Weaving recovery, equity, and public health into local energy and climate work.

The dilemmas of 2020 are not yet behind us. From ongoing budgetary challenges to the systemic issues of racism and environmental injustice that have been illuminated, together local climate and energy practitioners must take decisive action to create a brighter, cleaner, and safer tomorrow for all. Making meaningful progress towards our clean energy vision requires us to embrace the challenging task of advancing holistic energy efficiency solutions, creating authentic relationships with communities, and lifting up viable climate and energy strategies that deliver tangible benefits. Promising pathways continue to emerge for local governments to strengthen their ongoing efforts with new partnerships, resources, policy solutions, and recovery strategies.

The virtual forum will focus on pivotal opportunities for local climate and energy practitioners to address the climate crisis in ways that result in lasting, institutional changes centered around equity and community wellbeing. The forum will create space to recognize the reality that people in our communities are living in today from the effects of climate change, historic and ongoing systemic inequities, COVID-19 impacts, and beyond. By doing so, local governments can focus on these interconnected issues to highlight local solutions and catalyze transformative change through collaboration.

The 12th Annual CCEC Forum, taking place in August 2021, will feature topics weaving recovery, equity and public health into local climate and energy work. The forum will spotlight progress and best practices through the tracks of *Holistic Climate/Energy Planning and Readiness, Equitable Decarbonization, and Just Clean Energy Transition*. We invite you to join fellow climate and energy practitioners from across California to collaborate on ***Transforming Tomorrow Together***.

12th Annual CCEC Forum: Call for Presentations and Facilitators (CFSP) Guidance Document

Submit by Monday, May 24th, 2021 at 5:00 PM PT

Session Tracks & Topics

Individual presentations should address, and facilitators should be prepared to facilitate on one or more of the topics listed below, which have been identified as priorities by CCEC participants through the pre-forum survey. While presentations should seek to meet participant interests and needs, there may be additional topics that would be beneficial to address for a local government audience that are not included in this list.

<p>Track 1: Holistic Climate/Energy Planning and Readiness</p>	<ul style="list-style-type: none"> ★ Leveraging energy data: benchmarking, tools, usage, and access ★ Equipping diverse partners to accelerate community-driven solutions (e.g CBOs, tribal governments, and small businesses) ★ Holistic climate action planning to support implementation ★ Integrating climate resilience into climate/energy action plans ★ Piloting new technologies and strategies ★ Redefining climate readiness through planning and community engagement ★ Planning and implementing affordable ZNE housing
<p>Track 2: Equitable Decarbonization Strategies</p>	<ul style="list-style-type: none"> ★ Electrification best practices, action plans, retrofits, and lessons learned ★ Energy Efficiency (EE) energy education and curtailment behaviors for community members ★ Responsible waste management for building retrofits and retirement of energy efficiency equipment ★ Reducing embodied carbon in building construction ★ Electrification and decarbonization policies, model ordinances, and codes ★ Integrating Energy Efficiency (EE) with Distributed Energy Resources (DER), Electric Vehicles (EVs), storage, renewable energy, and Zero-Net Energy (ZNE) ★ Access to Energy Efficiency (EE) rebate programs for renters and affordable housing retrofits ★ Decarbonization strategies in agriculture and farming including energy efficient technologies, water/energy nexus, transportation, workforce impacts, etc.

Presentation and Facilitation Proposals

The Forum will feature up to 16 virtual activities available for submitted proposals – 12 Session and 4 Interactive Lunch Event slots, that appeal to a statewide audience of climate and energy practitioners and highlight the 2021 theme of ***Transforming Tomorrow Together***. We are particularly interested in proposals that highlight the various co-benefits of energy efficiency solutions such as recovery, equity and public health.

<p>Proposal Form Questions</p>	<ul style="list-style-type: none"> ★ Proposer Contact Information <ul style="list-style-type: none"> ○ Stipend Qualification: In the interest of fomenting diversity and inclusion, we are offering \$200-\$500 stipends for speakers, moderators and session organizers who identify as BIPOC, and/or any other underrepresented community. ★ Session Track: select relevant session track and associated topics; 1- Holistic Climate/Energy Planning and Readiness, 2- Equitable Decarbonization Strategies, or 3- A Just Clean Energy Transition (<i>facilitators can identify more than one track they would be interested in</i>) ★ Cross-Cutting Topics: identify which cross-cutting topics that apply to all session tracks are present in the presentation or are of interest to the facilitator ★ Description of Expertise: detail your area of expertise and why you are interested in participating in the forum
<p>Submission Type</p>	<ul style="list-style-type: none"> ★ Present or Facilitate: Individuals interested in presenting and/or facilitating will be paired with other individuals or full session proposals who would best fit their interests and areas of expertise.
<p>Resources</p>	<p>If you would like to share additional resources, please plan to make them available online through a PDF or website link that the moderator can easily share. Note that these resources will be added to the forum webpage following the forum.</p>
<p>Virtual Platform</p>	<p>Virtual activities will be scheduled through the Local Government Commission's Zoom account, which can accommodate up to 500 participants per Session and 300 people per Interactive Lunch Event.</p>
