

Proposition 39: California Clean Energy Jobs Act – 2013

BACKGROUND:

- **Changed corporate income tax code**
 - **Allocates projected revenue to the General Fund and the Clean Energy Job Creation Fund for 5 years**
- **Energy Commission lead agency for K-12 program**

Eligibility Overview

- **Eligible Applicants: Public School Districts, Charter Schools, County Offices of Education, and State Special Schools**
- **Eligible Projects: Energy efficiency measures and/or clean energy installations at a school site**
 - **All facilities within a school site including: classrooms, office facilities, auditoriums, multipurpose rooms, gymnasiums, cafeterias, kitchens, pools, and special purposes areas**

Comprehensive Energy Efficiency Program for Existing Buildings (AB 758, Skinner, Chapter 470, Statutes 2009)

- Program Objective: Improve energy efficiency in California's existing buildings, particularly those built before the first *Building Energy Efficiency Standards* were published in 1978.

Comprehensive Energy Efficiency Program for Existing Buildings, Continued

- Energy Commission staff presented the *Draft Action Plan* in June 2013 and received over 50 comments from stakeholders.
- Staff are revising the action plan to incorporate the comments and include focused and realistic goals and strategies.
- A workshop to present the revised plan is scheduled for fall 2014.

Home Energy Rating System (HERS)

- New mandatory requirements for 2013 Energy Standards
 - New forms and data registry requirements that require registration of residential forms.
 - Energy Commission has approved 1 provider and is reviewing the applications of other providers.

Acceptance Testing Technician Certification Program (ATTCP)

- New requirements for 2013 Energy Standards for Lighting and Mechanical Acceptance Testing for Nonresidential Buildings
- Industry Certification Threshold Report for Lighting submitted by the California Advanced Lighting Control Training Program (CALCTP) and is under review by the Energy Commission

Building Energy Efficiency Standards (Standards) Development

- 2016 Standards Pre-Rulemaking Phase ends December 2014
- Holding Staff Workshops on proposed measures June-August 2014
- Formal Rulemaking Phase expected to begin January 2015

2016 Standards Development

- Energy Commission Adoption of Standards Language Anticipated in May 2015
- Effective date January 1, 2017
- For more information: <http://www.energy.ca.gov/title24/2016standards/>

AB1103 – The Statute

Utilities

- **Provide aggregated energy use data on request from building owners to their ENERGY STAR Portfolio Accounts.**

Building Owners

- **Provide the AB 1103 Disclosure Report via ENERGY STAR Portfolio Manager for qualifying transactions.**
