1. With our theme in mind ("Weaving recovery, equity, and public health into local energy and climate work"), **what are the most promising local innovations or most compelling ideas you heard at this years' Forum?**
2. Reflecting back on Alana Mathew's exercise she led us through at the Opening Plenary, **what solutions came up for you to transfer those images of a clean, healthy, thriving community, to the most vulnerable communities you work with?**
3. In 2021, **what are the biggest challenges to achieving our local energy and climate goals?**
4. **What can CCEC do to better support you in the future?**
