

2021 Budget Act of California

The [California Climate and Energy Collaborative](#) (CCEC) exists to help local governments achieve their clean energy and climate goals. That's why we create our [annual legislative update](#) - to provide an easy-to-digest summary of the climate and energy bills that were passed into law in the 2021 California legislative cycle. The [Alliance of Regional Collaboratives for Climate Adaptation](#) (ARCCA) puts out a companion legislative update that focuses on adaptation policies. This supplemental, stand-alone update on California's Budget Act 2021 (SB 170) summarizes the energy-related appropriations.

SB-170 Budget Act of California

State Air Resources Board

- » \$971 million for clean fuel vehicles (Sec. 85 & 86)
