Cities

The Program

Topics covered include workforce development, partnerships, climate planning, transportation electrification, codes and standards, electrification, energy efficiency, renewable energy, and more!

I look forward to this Forum every year. It is a wonderful opportunity to connect with peers and leaders across the state on locally focused energy and climate solutions.

-Laurel Rothschild, The Energy Coalition

average breakout
rating (out of 5)

“CCEC is great for networking and learning! This is the Forum to attend to meet the movers and shakers in the energy efficiency, decarbonization, energy equity, and climate action space. This is a place where innovative and passionate minds from local government, not-for-profits, utilities, state government, and more come to discuss solutions to our most pressing problems.

- Aisha Cervantes-Cisna, San Diego
