San Jose, CA

July 9-10, 2025

Hope in Action: Local Leads the Way

The Audience

The audience is broken down by percentage and then shared are the number of unique organizations and jurisdictions that were represented at the forum

“

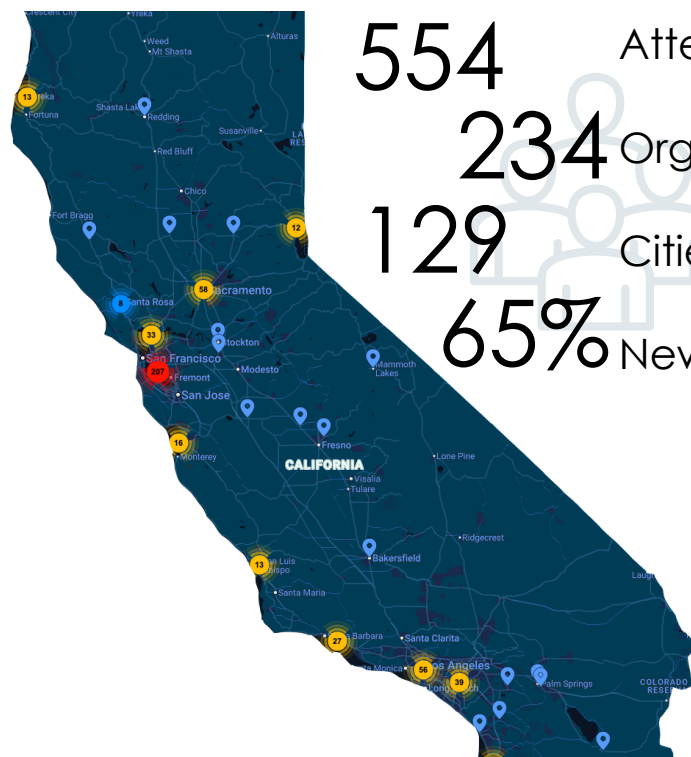

This was my first time at CCEC and it was truly inspiring. Hundreds of like-minded individuals collaborating and working together to make progress solving some of our biggest challenges. I'm inspired and will be back next year!

- Charlie Benzyk, SPURR

“

The CCEC conference brought impressive individuals working on climate action across the state to share ideas and learn together; the experience was inspiring as I'm sure that with this level of effort and expertise, these individuals and the organizations they serve will have a significant positive impact on efforts to address climate change.
